JETFINS	XXL	45-46	12310031 XXL	126,00€

* Indicative Data only

The weight of jetfins makes the use of traditional ankle weights obsolete.

The size XL Jetfin is considered the "standard" for shoe sizes 40-43 (US 8-10)(UK 7-9). However due to different boot styles and foot shapes it is important to test for correct sizing.

NOTE:

Turtle fins are generally used when a wider foot pocket is needed (i.e. DUI Rock Boots).

Jetfins XXL are considered to have an extremely large foot pocket and in general used for sizes 47 (US 13)(UK 12) and larger.
